MONETARY AND COMMERCIAL.

Busines is generally restricted, purchasers confining themselves to those articles for immediate use. Since our last report the suspension of the extensive bakery of Mesers, Geo. R. Hill & Co. has been announced, but it is gratifying to know that the prospect is that it will be of but short duration, the principal creditors having full confidence in the integrity of the firm, and are arranging with Mr. Hill by which work will be resumed at an early day. In financial affairs there is nothing new hereabouts, and the remarks of last week are applicable to this. In Baitimore the papers continue to quote the money market quiet and steady, the demand being moderate and the supply abundant. There is less paper making than usual for the amount of business doing, owing to the system of short credits, consequently the banks have a lessened demand from their regular customers, and the street rates are low. Loans on Erst class collaterals are quoted at 3½a5 per cent, and discounts at 41a6, the inside figure for best known names only. Allow me to assure you that we are grateful for the i vitation, and remember, with real pleasure, the generous hospitality we re o ived during our visit to Alexandria on a simior occasion two years since.

LETTER FROM RICHMOND.

There was an alarm of fire about 6:30 Clock [Correspondence of the Alexandria Gazette.] RICHMOND, Feb. 13.-Mr. Hunter missed a chance yesterday of getting in something about the game law for there was a bill up for the protection of deer. In the bill occurred the phrase "his or her deer." Mr. B. W. Lier, of New Kent, moved to strike out the words "er her deer." He stated that as the and especially these three who it is rumored to have the bill amended in this respect, which was done.

Mr. Myers, the newly elected member from Norfolk, is an earnest opponent of the Moffett register. It now seems that the effort to abolish it this winter will be in flective.

Mr. Harrison, of Sussex, yesterday in his speech on the constitutional amendments said he was in favor of the Governor holding his office without getting any salary at all. He thought by this means we would have always only good men applying for the position, and men who would take the place alone for the topor that attaches to it. Well, as for that matter, Gov. Holliday is practically serving now without going acy salary, for he has not drawn his salary since the figancial embarrass-

preets of the State. The Richmond and Alleghany Railroad bill was to day made the special order for Friday at l del ck in the Sonate. This bill will not co cupy as much time in the Senate as it consumed

in the House. The time of the House was mainly taken up o day with the discussion of the joint resolu ion proposing smendments to the constitution. Gen. Taliaterro, of Gloucester, made a speech on the bul, and during the course of his remarks he off-red an amendment, which was in off or that all elections shall be held openly or viva voce, and not by ballot. This produced a lively discussion. The opponents of the ameed ment took the ground that the viva vecs system did not secure the rights of voters to free vot ing, and they advanced in support of this pail tion the statemens that in the country especially a farmer employing a large number of hands would control their votes, for he would know how they voted, and if they did not vote to suic bim he would discharge them. It was held that the ballot alone gave the citizen the

power of exercising his right of suffrage. Mr. Harrison, of Sussex, thought also that the viea voce system would have the effect of uniting the negroes in opposition to the whites as the colored men would be afraid to vote against the as judy of their race.

Those in favor of open voting held that a man who would be afraid to cast his vote open ly did not have any right to have a vote at all. Mr. Harvie, of Amelia, made an carnest spaceh in favor of a constitutional convention. There is a disposition on the part of quite a number of the members, and especially the readjusting element, to have a convention.

Chances of a sattlement of the debt ques-

tion look a little brighter to day. When this

drops out of our polities the next one which the present iscumbent, Senator Withers, Major John W. Daviel, Mr. James Barbour, of Culpeper, General William Mahone, and Governor Kemper. It was predicted that the debt questi a would be brought into this matter, but the chance of the settlement of this matter now will have the effect of removing it, as a disturbing element, from our politics. General Mahore would have been brought out as the leading exposent of the ultra readjusting element. His friends now concede that it would be vain for tion of Senator, the leading readjuster and the man who has done the real work for that element of the Conserva ive party of which he is the acknowledged leader is Mr. Barbeur, and secondly, because the question will not enter into the election of a Sepator at all; therefore General Mahone is considered out of the race. The other gentlemen named will be the prominent candidates for this place.
